EDUCATION DAY

The goal of the game is to spark young people's interest in a career in the lift industry.

GAME LIFT FOR KNOWLEDGE

7 classes of students from lift and electrical engineering technical schools

THE ACCESSIBILITY ISLAND

A place where you can experience firsthand the challenges that people with various disabilities face every day, and how technology helps them overcome these challenges.

What was located on the Accessibility Island?

- The opportunity to test the accessibility of the space and try your hand at everyday tasks from the perspective of a wheelchair user.
- The opportunity to see what the world looks like through the eyes of people with various visual impairments, such as cataracts, glaucoma, or retinopathy
- The opportunity to see how challenging simple tasks can be for individuals suffering from Parkinson's disease
- The opportunity to experience how perception and motor coordination change in various neurological disorders

CONTENT PROGRAM
